

# Reliable. Flexible. Secure.

## Transition to the GovCon Cloud Today

### Upgrade your capabilities to increase efficiency securely

By migrating your ERP to the Cloud, you will avoid the costs of running your own servers, reduce risk by increasing security and continuity on a proven service, and gain access to many key features that are creating competitive advantages for thousands of government contracting firms.

Cloud-only Capabilities	Benefit
Mobile Application	Time and expense entry anywhere at any time
Fixed Asset Management	Track, assign, and account for fixed assets and depreciation
<u>Subcontractor Portal</u>	Allow subcontractors to manage employees, track time and expense, and enhance productivity
<u>Contract Management w/ Clauses</u>	Streamline and automate contract management and assignment of standard clauses to tasks and formats
Enhanced Purchasing Tools	Streamline purchasing productivity and automate tasks
Vendor Invoice Customization	Easily generate custom invoices to accelerate cash flow
Assign tasks from PO	Automate assignment of work and project scheduling
Enhanced Planning & Assignment	Simplify project management and utilization
New Gantt Chart Functionality	Easily view project dependencies and timelines
<u>Daily Time Entry and Time Dashboard</u>	Manage and track time entry and delinquencies
<u>Enhanced Analytics and Dashboards</u>	Build and share interactive reports and dashboard

### Cloud-hosted software is now the secure standard

Unanet ended the sale of new On-Premise software over two years ago, and our development resources have largely been devoted to our Cloud customers and Cloud features increasingly since then. The sooner you transition to the Cloud, the sooner you can take advantage of these capabilities that are included for every Unanet customer.

## More on Security

Unanet has been in the Cloud since 2002, and we leverage the top vendor in the space in AWS (Amazon Web Services). They meet all the various digital and physical security requirements of the federal government—with FedRAMP Moderate Equivalent for some services in some locations—upon request.

- CMMC Level 2-ready with FedRAMP Moderate Equivalent application status in the Marketplace
- Encryption at rest, in transit, and in archive
- High availability and 99.9% uptime SLA with a 10-minute to 1-hour RPO commitment
- Proactive performance monitoring and issue resolution
- More information available on request

## Free upgrade services for a limited time only

Upgrade to the cloud now and **we will waive the \$2000 cloud transition services**

# The next move is yours.

About Unanet Unanet is a leading provider of project-based ERP and CRM solutions purpose-built for government contractors, architecture, engineering, construction, and professional services.
