Unanet Subcontractor Management

Modernize subcontractor management

This advanced solution is available with or without Unanet ERP

Offload tasks
Enable subcontractors to manage their own employees and time

Shorten cash cycle by 4-6 weeks
Mobile apps, automation, and integration insures accurate, compliant accounting

Accurate, timely insights
across organizations, projects, contracts, and people

Reduce errors and risk
Easily check and automate error detection to reduce compliance risk and accelerate cash flow

Subcontract labor and expense today

Prime contractors are constrained by extensive manual processes, changing requirements, and disconnected legacy systems.

It's time for a modern way to manage Subcontractor labor.

Key Capabilities

Our unique solution integrates easily with your systems & data, can support your contracts, clauses, and processes, and includes a mobile app for simple, consistent time tracking.

Onboard & manage subcontractors

Provide each contractor with a dedicated portal

Integrated communication & documents

Dedicated, shared subcontractor portal accelerates collaboration

Set up timecard and expense rules

Automatically enforce timecard rules and assign work to PO/Project/Labor Category Rates

Configurable invoices

Digital, shared documents and forms to reduce errors and accelerate approval

Automated invoice creation

Route approved time and expenses into custom invoices instantly

Built for enterprise scale

Unparalleled support and flexible integration to existing ERP, CRM, and other systems

Compliance-first

A single, custom timesheet interface tied to contract clauses that supports flow-down and more
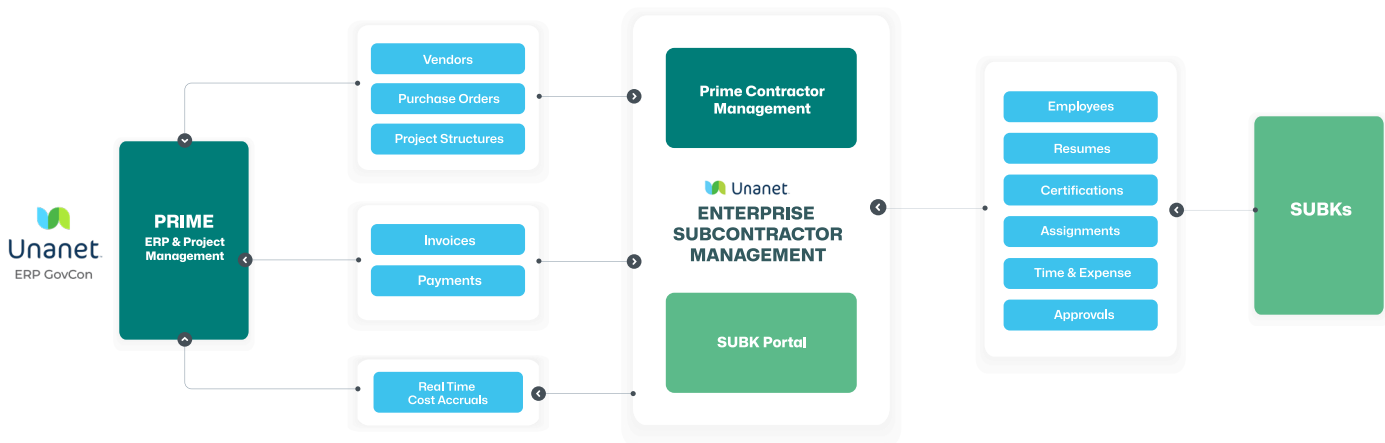

Mobile app

Scan and input receipts automatically and track time anywhere

Shared, real-time visibility

All project resources, budgets, EACs, actuals, and deliveries constantly updated from timesheet to executive dashboard

Connect, Simplify, and Optimize your subcontractor labor
